Summary of Progress

The building contractor has completed removal of the raised garden and hardstand, leaving us a clear, level site ready for excavation and foundation installations. Initial test piling has commenced to check the quality of the earth that our building will sit on, down to several metres.

Key tasks recently completed

- Complete removal of raised garden
- Complete removal of hardstand

Key tasks recently commenced

- Commencement of test piling on site
- Set out of building footprint

Key tasks to be undertaken in coming weeks

- Completion of survey and set out of building footprint
- Finalisation of test piling
- Commencement of foundation piles and further excavation
